Old Business:

- The trifold needs to be redone. Wytheville Word Print may have the original. We need members to submit pictures of people extracting, going into their hives or food service with honey. Pictures of flowers, shrubs or trees that bees like are needed as well.

New Business:

- Mickey Cunningham shared that Crimson Clover (annual) is great for bees, but not the perennial Crimson Clover. He suggested that those of us who want to purchase some do so in bulk together in order to save money. \$10.25 per lb. For information: <https://territorialseed.com/products/clover-crimson-clover>
- Dr. Tignor with VSBA did research that shows **sunflowers** tend to keep the varroa mite population down. **Get your seeds early!**
- Do not feed pollen or protein supplements in September or October.
- Fred Jones from Pilot, Virginia bought Tim Service's queen rearing business. He will have queens available. His phone number is (540) 745-2982.
- Rural King has the cheapest prices on sugar right now. It was also noted that Walmart often has sugar cheaper in July than most other places.
- "Tator" David Miller of Abingdon, Virginia is still buying wood to make woodenware bee supplies. He can be reached at 25155 Walden Road Abingdon, VA 24210. His phone number is (276) 608-6225.

- Mickey Cunningham will be verifying the pricing with Karén Avetisyan, Ph.D. of Bee and Comb, LLC on the new British hood and jacket. The price is around \$79.00. Bee and Comb, LLC in Durham, North Carolina is offering **free shipping** on orders more than \$50.00. *Also, when sent to **Virginia is tax-free**. <https://www.beekeepingservices.com/> Let Mickey know if you are interested in purchasing. His number is (276) 579-2123.
- An observation hive given to MEBA from S & W was painted beautifully by Denise Sturkie. We thank her very much for the amazing work she did.
- A motion for consideration as “How to Conduct Basic Bee Class” for the next five (5) years

“Whereas part of the mission for Mountain Empire Beekeepers Associations (association) is to help new beekeepers to become established, therefore, I move that the tuition cost be set at \$47.00 per student and family discount be set at \$75.00 and family tuition provides maximum of two textbooks per family. Duration of this motion is not to exceed five (5) years from January 26, 2023. (Second required here)

Discussion: Purpose of this motion is to aid class recruitment on a multiyear basis. Also, this motion is not to limit the powers of the executive committee on a biennial basis to adjust tuition based upon the economy and the development of a new textbook.

Perception from recruiting this year is that more persons will be retiring to the area covered by the association and that when discussion on the class reaches price for tuition it should remain stable for at least two years. Secondly, this motion will allow our membership to talk to other persons with assurance of facts about our educational program.” *This motion has been tabled for 2 months.*

Raffle Winners:

5 Medium frames – Bailey Martin
 5 Deep frames – Tom Lavelle
 1 Medium box unassembled – Fred Williams
 Inner cover with feeding screen hole – Janet Bailey

Next meeting: Thursday June 22, 2023 at 6:30 p.m. at Wytheville Community College in Smyth Hall room 122.

Adjourned: at 8:30 p.m.

Respectfully submitted,
 Connie Armentrout, MEBA Secretary
